

THE CAMPAIGN FOR POSSIBILITIES

Question: What are the three most serious limitations of the present PIN facilities?

The three most serious limitations are:

1. **Severe Space Limitations:** With just 2,500 square feet in a three-story century-old house, the increasingly crowded and cramped facility is no longer sufficient to meet the existing or projected needs
- **Lack of Loading Dock:** Deliveries of food are difficult with a lack of loading space that is conducive to both large delivery trucks and cars
- **Limited Parking:** The lack of off-street or proper handicap parking and improper zoning make the current facility woefully inadequate

The need is growing. The time is now.
We need **your help** to make it possible.
